Dear All

12th January 2010

Just a quick note to keep you up to date with the current situation.

Firstly, we would like to thank all of you who have returned your forms to us with your airfield details. This is helping us to plan a system for wing testing, which will commence as soon as we get the go ahead from the CAA – we however believe that this could still be several weeks off so please bear with us in the meantime.

We will be going to the flying schools first and then working around the country, fitting in those of you who can get your aircraft to us on the days we need to be back at base. As we have seen over the past couple of weeks, our arrangements may have to change at short notice due to the weather, because of driving, not just flying conditions!

We would also like to thank all of you who have offered help and support during this difficult situation. Please do not be offended if we have not managed to reply to you personally, but all offers of help and words of support have been read and noted and we will contact each of you as and when we require your assistance.

Again, thank you all - we will be in touch as soon as testing commences.

Happy New Year

Mikaela Hurtubise
